(1) Summary of Significant Accounting Policies

(A) Accounting Practices

The accompanying statutory financial statements of MGA Insurance Company, Inc. (Company) have been prepared on the basis of accounting practices prescribed or permitted by the Texas Department of Insurance. The state of Texas requires insurance companies domiciled in the state of Texas to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) subject to any deviations prescribed or permitted by the Texas Department of Insurance.

The only difference between Texas prescribed practices and NAIC SAP is that Texas regulations allow furniture and equipment to be admitted assets whereas NAIC SAP does not. Reconciliations of net income and policyholders' surplus between amounts presented in the financial statements (Texas basis) and NAIC SAP are as follows:

Description	3/31/13	12/31/12
Net income, Texas basis	\$(688,877)	\$996,678
Effect of Texas prescribed practice for Furniture and Equipment	0	0
Net Income, NAIC SAP basis	\$(688,877)	\$996,678

(D) Loan-Backed Securities

- (1) Prepayment assumptions for single class and multi-class mortgage-backed securities were obtained from internal estimates consistent with the current interest rates and economic environment and projections of security dealers available on the Bloomberg information system.
- (2) No other-than-temporary impairment was recognized in the first quarter of 2013.
- (3) Not applicable
- (4) The following table summarizes gross unrealized investment losses on loan-backed securities based on length of time continuously in these unrealized loss positions as of quarter end:

a. Aggregate amount of unrealized losses:	
1. Less than 12 months	\$7,150
2. 12 months or longer	959,575
2. Total	\$966,725
b. Aggregate fair value of securities with unrealized loss:	
1. Less than 12 months	\$2,328,385
2. 12 months or longer	4,403,453
3. Total	\$6,731,838

- (5) All loan-backed securities in an unrealized loss position were reviewed to determine whether an other-than-temporary impairment should be recognized. For those securities in an unrealized loss position as of March 31, 2013, the Company has made a decision not to sell any such securities. The Company has evaluated its cash flow requirements and believes that its liquidity is adequate and it will not be required to sell these securities before recovery of their cost basis. The conclusions are supported by a detailed analysis of the underlying credit and projected cash flows on each security. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities held if future events, information and the passage of time cause it to conclude that declines in value are other-than-temporary.
- (E) The Company had no repurchase agreements or securities lending transactions in the first quarter of 2013.

(20) Fair Value Measurements

(A) Inputs Used for Assets and Liabilities Measured at Fair Value

(1) Fair Value Measurements by Levels 1, 2 and 3

The Company has categorized its assets that are measured at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value is determined.

The three levels are defined as follows:

Level 1 – Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded preferred and common stocks. The estimated fair value of the equity securities within this category are based on quoted prices in active markets and are thus classified as Level 1.

Level 2 – Significant Other Observable Inputs: This category for items measured at fair value on a recurring basis includes bonds, loan-backed securities, preferred stocks and common stocks which are not exchange-traded. The estimated fair values of these items were determined by independent pricing services using primarily observable inputs.

Level 3 – Significant Unobservable Inputs: This category includes valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Company's own estimates as to the assumptions that market participants would use. Investments classified as Level 3 are would primarily be comprised of private placement corporate debt in an inactive market where trades in similar securities do not occur.

Description	Level 1	Level 2	Level 3	Total
Assets at fair value: Bonds & asset-backed securities Industrial & miscellaneous: issuer obligations Industrial & misc.: residential mortgage-backed Common stock: parent		\$3,674,142		\$3,674,142
Total bonds & asset-backed securities		\$3,674,142		\$3,674,142

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between Levels 1 and 2. There were no transfers between Levels 1 and 2 based upon a resulting change in the character of the observable inputs.

(2) Rollforward of Level 3 Items

The Company had no securities characterized as Level 3 during the first quarter of 2013.

	Level 3 Balance	Transfers	Gains (Losses)	Total Gains (Losses)			Level 3 Balance
	at	In or Out	Included	Included in			at
Description	1/1/13	of Level 3	in Income	Surplus	Purchases	Sales	3/31/13
Assets at fair value Bonds & asset-backed securities Preferred stock							
Common stock							
Total assets at fair value	0	0	0	0	0	0	0

(3) Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3 based upon the change in the character of the inputs employed to estimate fair value. The above table of Level 3 assets begins with the prior period balance and adjusts the balance for the gains or losses (realized and unrealized) that occurred during the current period. Any new purchases that are identified as Level 3 securities are then added and any sales of securities which were previously identified as Level 3 are subtracted. Next, any securities which were previously identified as Level 1 or Level 2 securities and which are currently identified as Level 3 are added. Finally, securities which were previously identified as Level 3 and which are now designated as Level 1 or as Level 2 are subtracted.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Level 2 securities have a fair value derived from a market price estimate provided by an independent pricing service. This generally involves a matrix pricing approach which looks at the characteristics of securities traded in actual market transactions and maps them into categories. If the specific security to be priced has not recently traded, it is also categorized, and the market yield on deemed similar instruments is applied to that issue. The Level 2 securities measured at fair value are primarily loan-backed securities where the underlying assets are Alt-A or subprime mortgage loans. For securities backed by mortgage loans, key inputs include the market required loss adjusted yield, and the projected default rate, severity, and voluntary prepayment speed on the underlying collateral. The independent pricing service derives these inputs primarily from observed historical values of collateral performance and the analysis of the profile of the remaining loans.

The Company owns one Level 3 instrument, a CAPCO bond whose principal is repaid through premium tax credits granted by a program established by the State of Texas. It is valued through the cash flow method. The estimated premium tax credit utilization schedule is discounted by a rate equal to a spread to the US Treasury curve which was utilized for pricing the bond at the time of issuance.

(5) Derivative Fair Values

Not applicable

(B) Other Fair Value Disclosures

Not applicable

(C) Fair Values for All Financial Instruments by Levels 1, 2 and 3

The table below reflects the fair values and admitted values of all admitted assets that are financial instruments excluding those accounted for under the equity method. The fair values are also categorized into the three-level fair value hierarchy as described above in Note 20A. The company had no liabilities that are financial instruments.

	Aggregate	Admitted				Not Practical
	Fair Value	Assets	Level 1	Level 2	Level 3	(Carrying Value)
Bonds	\$150,217,911	\$148,163,107	\$12,254,492	\$136,377,828	\$1,585,592

(D) Financial Instruments for which Not Practical to Estimate Fair Values

Not applicable

(21) Other Items

No significant changes

(22) Events Subsequent

There were no events occurring subsequent to the close of the books for this statement that would have a material effect on the financial condition of the Company.

(23) Reinsurance

The Company's catastrophe reinsurance limit for auto physical damage exposures has been reduced to \$6.5 million in excess of \$1.0 million for 2013. The limit in the previous year was \$14.0 million in excess of \$1.0 million. The reduction of the reinsurance limit was a direct result of Florida legislation which substantially reduced the Company's exposure related to Citizen's Insurance assessments for catastrophe events.

(24) Retrospectively Rated Contracts and Contracts Subject to Redetermination

The Company has no retrospectively rated contracts or contracts subject to redetermination.

(25) Changes in Incurred Losses and Loss Adjustment Expenses

The estimated cost of loss and loss adjustment expenses (LAE) attributable to insured events of prior years decreased by \$189,000 during the current year as a result of ongoing analysis of recent loss development. Original estimates are increased or decreased as additional information becomes known regarding individual claims.

(26) Intercompany Pooling Arrangements

The Company does not have any intercompany pooling arrangements.

(27) Structured Settlements

The Company has not entered into any structured settlements.

(28) Health Care Receivables

The Company has no health care receivables.

(29) Participating Accident and Health Care Policies

The Company does not write accident and health care policies.

(30) Premium Deficiency Reserves

The Company evaluated the need to record a premium deficiency reserve and determined no reserve is necessary.

(31) High Deductibles

The Company does not write high deductible coverages.

(32) Discounting of Liabilities for Unpaid Losses and Unpaid Loss Adjustment Expenses

The Company does not discount liabilities for unpaid losses or unpaid loss adjustment expenses.

(33) Asbestos/Environmental Reserves

The Company has no exposure to asbestos or environmental claims.

(34) Subscriber Savings Accounts

The Company has no subscriber savings accounts.

(35) Multiple Peril Crop

The Company does not write multiple peril crop insurance.

(36) Financial Guaranty Insurance

- (A) The Company does not write financial guaranty insurance.
- (B) The Company does not have insured financial obligations.
