(1) Summary of Significant Accounting Policies

(A) Accounting Practices

The accompanying statutory financial statements of MGA Insurance Company, Inc. (Company) have been prepared on the basis of accounting practices prescribed or permitted by the Texas Department of Insurance. The state of Texas requires insurance companies domiciled in the state of Texas to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) subject to any deviations prescribed or permitted by the Texas Department of Insurance.

In these statements, the only difference between Texas prescribed practices and NAIC SAP is that Texas regulations allow furniture and equipment to be admitted assets whereas NAIC SAP does not. Reconciliations of net income and policyholders' surplus between amounts presented in the financial statements (Texas basis) and NAIC SAP are as follows:

	3-31-16	12-31-15

This two-step process determined the carrying value method and NAIC designation.
- (7) through (13) No significant changes

(D) Going Concern

Management's evaluation determined there are no principal conditions or events that raise substantial doubt about the Company's ability to continue as a going concern.

(2) Accounting Changes and Corrections of Errors

The following table summarizes by quarter other-than-temporary impairments (OTTI) recorded during the year because the Company had either the intent to sell the securities or the inability or lack of intent to retain as cited in the table:

	Amortized Cost	OTTI	
	Before OTTI	Recognized	Fair Value (1-2)
Other Than Temporary Impairment recognized 1st quarter

b. Inability or lack of intent to retain investment in the security for

(3) The following table reflects securities with an OTTI recognized in current year earnings based on the fact the present value of cash flows expected to be collected was less than the amortized cost basis of the securities:

CUSIP/ Description	Amortized Cost Before OTTI	Present Value of Projected Cash Flows	OTTI Recognized	Amortized Cost After OTTI	Fair Value at Time of OTTI	Financial Statement Date Reported
Total OTTI			0			

(4) The following table summarizes gross unrealized investment losses on loan-backed securities based on length of time continuously in these unrealized loss positions as of quarter end:

a. Aggregate amount of unrealized losses:	
1. Less than 12 months	0
2. 12 months or longer	298,254
3. Total	298,254
b. Aggregate fair value of securities with unrealized loss:	
1. Less than 12 months	0
2. 12 months or longer	3,048,882
3. Total	3,048,882

- (5) All loan-backed securities in an unrealized loss position were reviewed to determine whether an OTTI should be recognized. For those securities in an unrealized loss position as of March 31, 2016, the Company has made a decision not to sell any such securities. The Company has evaluated its cash flow requirements and believes that its liquidity is adequate and it will not be required to sell these securities before recovery of their cost basis. The conclusions are supported by a detailed analysis of the underlying credit and projected cash flows on each security. It is possible that the Company could recognize an OTTI in the future on some of the securities held if future events, information and the passage of time cause it to conclude that declines in value are other-than-temporary.

(20) Fair Value Measurement

(A) Inputs Used for Assets and Liabilities Measured and Reported at Fair Value

(1) Items Measured and Reported at Fair Value by Levels 1, 2 and 3

The Company has categorized its assets and liabilities that are measured at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The levels are defined as follows:

Level 1 – Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded preferred and common stocks. The estimated fair value of the equity securities within this category are based on quoted prices in active markets.

Level 2 – Significant Other Observable Inputs: This category for items measured at fair value on a recurring basis includes bonds, loan-back securities, preferred stocks and common stocks which are not exchange-traded. The estimated fair values of some of these items were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded.

Level 3 – Significant Unobservable Inputs: This category includes valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Company's own estimates as to the assumptions that market participants would use. Investments classified as Level 3 are comprised of securities for which values provided by an independent pricing service or quoted market prices were not used, many of which are not publicly traded or are not actively traded.

Description	Level 1	Level 2	Level 3	Total
Assets at Fair Value				
Bonds				
Issuer obligations	-	5,305,752	-	5,305,752
Residential mortgage-backed	-	2,069,768	-	2,069,768
Common stock	-	3,686,415	-	3,686,415
Preferred stock	-	488,800	-	488,800
Total Assets at Fair Value	0	11,550,735	0	11,550,735

All of the Company's Level 1 and Level 2 invested assets held as of March 31, 2016 were priced using either independent pricing services or available market prices to determine fair value. The Company classifies such instruments in active markets as Level 1 and those not in active markets as Level 2. Those for which the independent pricing service value is used are classified as Level 2. At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below. There were no transfers between Levels 1 and 2 during the first quarter of 2016.

(2) Rollforward of Level 3 Items:

Description	Level 3 Balance at 12-31-15	Gains (Losses) Included in Income	Gains (Losses) Included in Surplus	Purchases	Sales	Transfers into Level 3	Transfers out of Level 3	Level 3 Balance at 3-31-16
Assets at Fair Value								
Bonds and asset-backed securities	-	-	-	-	-	ı	-	-
Total Assets at Fair Value	0	0	0	0	0	0	0	0

(3) Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. The above table of Level 3 assets begins with the prior period balance and adjusts the balance for the gains or losses (realized and unrealized) that occurred during the current period. Any new purchases that are identified as Level 3 securities are added, and any sales of securities which were previously identified as Level 3 are subtracted. Next, any securities which were previously identified as Level 1 or Level 2 securities and which are currently identified as Level 3 are added. Finally, securities which were previously identified as Level 3 and which are now designated as Level 1 or as Level 2 are subtracted.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Level 2 securities have a fair value derived from a market price estimate provided by an independent pricing service. This generally involves a matrix pricing approach which looks at the characteristics of securities traded in actual market transactions and maps them into categories. If the specific security to be priced has not recently traded, it is also categorized, and the market yield on deemed similar instruments is applied to that issue. For securities backed by mortgage loans, key inputs include the market required loss adjusted yield, and the projected default rate, severity, and voluntary prepayment speed on the underlying collateral.

(5) Derivative Fair Values
Not applicable

(B) Other Fair Value Disclosures

Not applicable

(C) Fair Values for All Financial Instruments by Levels 1, 2 and 3

The table below reflects the fair values and admitted values of all admitted assets and liabilities that are financial instruments excluding those accounted for under the equity method (subsidiaries, partnerships). The fair values are also categorized into the three-level fair value hierarchy as described above in Note 20(A). The Company does not have any liabilities measured at fair value.
